

BUILDINGENERGY NYC

THURSDAY, SEPTEMBER 26, 2019 • NEW YORK, NY • NESEA.ORG/BENYC19

Conference + Trade Show of the Northeast Sustainable Energy Association (NESEA)

BPI Approved Conference Sessions

This year's theme of **Electrification** means that content will focus on how electrification will affect design, construction, related policies, technology, operations, user engagement, and community equity, as well as on solutions for when electrification is not possible.

Session 1 (9am–10:30am)

- Carbon Counts! Calculating the Carbon Content of Commercial Construction
- Electrification and Large Buildings: Roadblocks and Opportunities
- NYC's High Performance Retrofit Program and Resources

Session 2 (11am–12pm)

- A Low-Cost Approach to Prepare Your Facility for Electrified Heating & 80% GHG Reductions
- Shark Tank: Refining Your Pitch to Reluctant Stakeholders
- Commercial HVAC Retrofits in the Age of Electrification
- Ongoing Operations Support in Multifamily Buildings

Session 3 (1pm–2pm)

- Electrify Your Health! How Electrification Can Improve Human Health in Urban Buildings
- Cost-Effective Transition to Electrified Heating & Cooling with Distributed Generation
- Scaling Heat Pump Retrofits: Come for the Efficiency, Stay for the Air Conditioning

Session 4 (2:30pm–4pm)

- Electrifying Our Small Building Stock: Lessons from the Field
- Postmortem: Are Rating Systems Really Working?
- Electrifying the Buildings of Tomorrow
