

BUILDINGENERGY NYC

ONLINE • WEDNESDAY–THURSDAY, SEPTEMBER 23–24, 2020 • [NESEA.ORG/BENYC20](https://nesea.org/benyc20)
Conference + Trade Show of the Northeast Sustainable Energy Association (NESEA)

GBCI-Approved Conference Sessions

The BuildingEnergy NYC 2020 theme is **Carbon**. We've come a long way in figuring out how to make buildings operate at peak efficiency; let's now examine how these high-performing projects can operate effectively on a rapidly decarbonizing grid.

Session 1 (Thursday, September 24, 9am–10am)

- [Insulating the Future: Reducing Embodied/Operational Carbon with Next-Gen All-Wood Insulation](#) (1 BD+C, ID+C, WELL)
- [Dual Temperature Buildings: High Carbon & Energy Users, Leveraging Capital Upgrades for the LL97 Paradigm](#) (1 BD+C, ID+C)

Session 2 (Thursday, September 24, 10:30am–12pm)

- [Multifamily Ventilation: A Tale of Two Cities](#) (1.5 BD+C, ID+C, O+M, WELL)
- [Moving the Masses toward Timber Construction](#) (1.5 BD+C, ID+C)

Session 3 (Thursday, September 24, 12:30pm–1:30pm)

- [A Toxic Investment? A Building's Health Begins with Healthy Materials](#) (1 BD+C, ID+C, O+M, WELL)
- [Electrifying a 100-Year-Old NYC Pre-War Multifamily Building](#) (1 BD+C, ID+C, WELL)

Session 4 (Thursday, September 24, 1:45pm–2:45pm)

- [Out of \[Site\], in the Air: Embodied Carbon & Material Selection](#) (1 BD+C, ID+C, WELL)
- [Refining Refrigerants for the Future](#) (1 BD+C, ID+C, O+M)

Session 5 (Thursday, September 24, 3pm–4pm)

- [New Heat Pump Technologies to the Rescue](#) (1 BD+C, ID+C, WELL)
- [Improving your Project's Material Health](#) (1 BD+C, ID+C, WELL)
