

BUILDINGENERGY NYC

GBCI AND BPI CEU CREDIT INFORMATION

In addition to the BPI and GBCI approved sessions listed below, all sessions offer credit toward AIA, BOC, NARI, and RESNET certification (see conference website for details). PHI and Phius credits are currently pending. You will also receive a detailed certificate of attendance via email after the conference, which you can use to self-report your hours to other professional organizations.

Sessions offering GBCI Credits

NESEA will report LEED credits on your behalf, but you must self-report WELL credits.

10:30am-11:30AM

Embodied and Operational Decarbonization Trade-Offs in the Building Envelope (BD+C, ID+C)

Net Zero Carbon Roadmap for a College Campus (BD+C, ID+C, WELL)

12:00pm-1:00pm

Teamwork Makes the “Therm” Work! Scaling District Geothermal Through Coalitions (BD+C, ID+C)

Further Together: Unlocking the Most Benefit by Collaborating in Decarbonization (BD+C, O+M)

Inside and Out: Insulating Our Existing Masonry Buildings (BD+C, ID+C, WELL)

1:45pm-2:45pm

Tales from the Trenches: Passive House Ventilation Commissioning Best Practices (BD+C, ID+C, O+M, WELL)

3:15pm-4:15pm

Multifamily Central Heat Pump Water Heating Retrofits: Learning the Hard Way (BD+C, ID+C, O+M)

NYCHA RAD-PACT: Generational Opportunities for Driving Change (BD+C, ID+C)

Grid-Interactive Efficient Buildings: How Smart Buildings are Decarbonizing NYC (IBD+C, ID+C, O+M)

Turning Building Supers into Energy-Saving Superheroes! (O+M)

Sessions offering BPI Credits

NESEA will report credits on your behalf.

9:00am-10:00am

Keynote — Building Decarbonizing for All: Where Policy Meets Practice

10:30am-11:30AM

Will Heat Pumps Break the Grid? Here’s Real Data!

Embodied and Operational Decarbonization Trade-Offs in the Building Envelope

Net Zero Carbon Roadmap for a College Campus

12:00pm-1:00pm

Teamwork Makes the “Therm” Work! Scaling District Geothermal Through Coalitions

Further Together: Unlocking the Most Benefit by Collaborating in Decarbonization

Inside and Out: Insulating Our Existing Masonry Buildings

Engaging A Multi-Generational Workforce to Decarbonize the Future

1:45pm-2:45pm

Tales from the Trenches: Passive House Ventilation Commissioning Best Practices

Decarbonization with Intention: Democratizing Data to Dismantle Barriers in Retrofits

3:15pm-4:15pm

Multifamily Central Heat Pump Water Heating Retrofits: Learning the Hard Way

NYCHA RAD-PACT: Generational Opportunities for Driving Change

Grid-Interactive Efficient Buildings: How Smart Buildings are Decarbonizing NYC

Turning Building Supers into Energy-Saving Superheroes!
