Important Information

The average DTE Electric residential customer is expected to save \$6.94 each month because of energy optimization programs over the remaining program life.

For the average Michigan residential customer, renewable energy is estimated to avoid \$3.90 per month of new coal-fired generation costs.

On December 6, 2013, the MPSC issued an Order approving the 2012 Energy Optimization reconciliation in Case No. U-17282. Beginning with the January 2014 billing cycle, the EOS will increase from 0.2711 cents per kWh to 0.2733 cents per kWh. The unmetered service rate is 1.1%.

Colder weather equals higher energy bills. DTE has programs and services that can help you manage your energy use and assist with bill payment. Go to dteenergy.com/needhelp.

Please return **all** payment coupons with your check or money order, payable to DTE Energy, five business days prior to the due date. Do not send cash or attach notes to the payment coupon.

Be sure to write your account number(s) on your check or money order.
