Re: PV System Rebate 909044

Dear Mr. ^{For} Hopper:

Thank you for submitting an application for the residential renewable generation system rebate. I am pleased to report that your application has been approved, and a rebate check from the State will be issued and mailed to you within the next seven to ten days.

I congratulate you on joining the ranks of hundreds of Granite State residents who have chosen to use clean, homegrown, renewable energy to help meet their home's demand for energy. Your personal commitment to clean energy will aid the State in meeting Governor Lynch's energy and environmental goals, including:

- The 25 x '25 initiative to increase the use of renewable energy to 25% of the state's total energy usage by 2025, and
- The Climate Change Action Plan, which calls for the use of renewable energy and other measures to reduce greenhouse gas emissions by 80% below 1990 levels by 2050.

It is my hope and expectation that your example will inspire your neighbors, friends and relatives to consider renewable power options, and that ultimately thousands of New Hampshire homes will be powered with solar panels, wind turbines and other clean energy technologies.

Thank you for doing your part to secure a clean energy future for New Hampshire.

Sincerely,

A handwritten signature in black ink, appearing to read "Jack K. Ruderman".

Jack K. Ruderman
Director, Sustainable Energy Division
