- Expanding Access to Clean Energy in Affordable Housing

Session 8: 11am-12pm

- Net Zero Montpelier: A Municipal Case Study

Session 10: 3pm-4pm

- Addressing Climate Resiliency: One Institutional Green Roof at a Time

BuildingEnergy Boston is designed by and for practitioners in the fields of high-performance building and design, energy efficiency, and renewable energy. This year's theme is **Transforming Existing Buildings**, with additional emphasis on decarbonization and on bringing more diverse communities into the discussion.

This year's event will be a **virtual conference & trade show**, Wednesday-Friday, August 12-14, 2020. **You must log in** for each session on the day of the event to receive credit.

APA members can earn up to 7.5 CM credits for attending the full conference (up to 3 credits on Thursday and up to 4.5 credits on Friday). Learn more about AICP's CM program at www.planning.org/cm.
